## VTOL VR Free Download [Keygen]

Download ->>->>->> [DOWNLOAD \(Mirror #1\)](#)

### About This Game

VTOL VR is a near-futuristic combat flight game built specifically for Virtual Reality. You are the pilot of an AV-42C, a Vertical Take-Off and Landing (VTOL) capable vehicle that can perform transport, air to surface, and air to air combat roles.

Take on a wide array of challenges that will put your flight skills, situational awareness, and combat tactics to the test.

**NEW:** Now you can also pilot the F/A-26B, an advanced twin-engine multi-role fighter jet.

No extra hardware is required. If you have a VR set with tracked controllers, then you have a virtual cockpit where you can reach out and interact with the stick and throttle, flip switches, press buttons, and even pull the eject handle if things go wrong.

Immerse yourself in action packed combat missions, delicate vertical landings, aircraft carrier operations, aerial refueling and more.

**NEW:** Create and fly custom missions which you can share with other pilots using the built-in mission editor (work in progress).

### Current Features

- AV-42C Tilt-jet VTOL/STOL/CTOL Attack/Transport vehicle
- "F/A-26" Fighter/Attack Jet
- Custom mission/campaign editor

- 
- Fully interactable cockpits via tracked controllers
  - Various interchangeable equipment - guns, rockets, missiles, bombs, etc.
  - Near realistic vehicle systems - heads-up display, targeting pod, multi-function displays, radar, IR flares, chaff, etc.
  - Head-mounted cueing system
  - Ejector seat
  - Realistic vehicle physics - lift, weight, thrust, drag
  - Several playable missions - "story mode" campaign, free flight, training scenarios/tutorials
  - AI wing men - fighter escorts and attack VTOLs
  - AI friends and foes - Tanks, artillery, surface-to-air missile launchers, ships, planes
  - Aerial refueling
  - Ground based refueling and rearmament
  - Carrier operations - catapult assisted takeoff, arrested landing
  - Island/ocean map
  - Map editor/generator
  - Radio communication system for wingmen, ATC

## **Planned Features**

*To be added throughout Early Access*

- More weapons and variants for different roles
- More missions/complete campaigns
- More types of friendly and enemy units
- Better vehicle damage model
- General improvements to existing features

## **"Long Term Goals"**

*If all goes well - possibly in updates after full release*

- Multiplayer
- Modding support

- 
- More flyable vehicles
