This DLC adds new side missions and some gear. I personally bought this addition to the game because of the missions. I enjoyed them for me it's worth it. I suggest buying this DLC when it's on sale. The description says what is included, so leaving a negative review for that would give other players who want to buy Homeland DLC the wrong impression. It works fine too.

As for activation, write down on paper or something the CD key/code of the DLC which you will get. When you start the game, from the main menu go to Extras and from there Redeem Code; You have to type the code yourself, copy/paste doesn't work. Activated it and you are good to go..
