I would love to help out if I can just let me know what you need. The quality is pretty good compared to other solutions but I haven't figured out how to adjust pitch and tone or mix background music with it (yet.. But for easy to deploy and on demand web services this solution is a synch This Text to Speech with PHP version can be found on my CodeSlinger GitHub page.. You can also easily setup an Ajax call on a website to play the text to speech audio file as you generate it.. Your blog provided us useful information to work on You have done a wonderful job! Sorry for the late reply, I have been busy with a couple of other projects and haven't looked at my blog since the last post..
