and reappear when the video ends. I'm reading this article It seems like I can provide a link to the HTML5 player, then set the src on it. But what do I do to get it to auto-load the HTML, and then start the video? I see if I have code like this:

```
$("#play-video-2").click(function() {  
  $("#video-container-2").attr("src","");  
});
```

The #video-container-2 is what I'd like to get rid of when the player is done. A: You want to use the onPlay() and onEnd() callbacks when you set the source URL for the video:

```
$("#video-container-2").attr("src", "" // change the  
  player URL to match your video id +
```

---

```
"&onPlay=startVideo&onEnd=stopVideo");  
  You would then pass the appropriate  
  function as a parameter to the respective  
  callback. 0.0/usr/local/elasticbeanstalk/task
